Answers] I purchased an Airguide Instrument Company barometer with temperature and humidity dials on it at an auction. I was wondering how to set the barometer and if there are any instruction manuals for this. I also was wondering how to read the barometer.

A barometer measures air pressure and can forecast the weather within a 12 to 24 hour period. Air pressure can be measured in inches of mercury, millimeters of mercury, or hectopascals, depending on where you live and the gauge on the instrument.

Barometer **airguide barometer | eBay**

This Airguide desk barometer was made by Fee & Stemwedel. It is not in my 1938 Airguide catalog (see the Airguide catalog webpage) but is older than 1956 since it has the F&S logo. I suspect it's from the 1940s. It has an attractive hardwood case, but the

Access Free Airguide

performance is
mediocre.
