Chapter 19 of Macroeconomics, Olivier Blanchard and David R. Johnson 1 • Understand how the market mechanism drives the financial market to arbitrage condition in open economy. • Understand the difference between domestic demand for goods and domestic demand for domestic goods and total demand for domestic goods.

11- The Goods Market in the Open Economy - Chapter 19 of ...

A trade restriction increases net exports for any given rate and therefore increases the demand for dollars in the market for foreign-currency exchange. As a result, the dollar appreciates in value, making domestic goods more expensive relative to foreign goods. this appreciation offsets the initial impact of the trade restriction on net exports.
