## **Command and Control: Nuclear Weapons, the Damascus ...**

McNamara formed a National Command and Control Task Force, informally referred to as the Partridge Commission, to study the problem of nuclear command and control in the early days of the ICBM era. The commission concluded "that the capabilities of US [nuclear] weapon systems had outstripped the ability to command and control them" using a decentralized military command and control structure.

Advances in both AI and cyber pose significant threats to the command and control networks responsible for the deployment of nuclear weapons. An effort to jam a network could, for instance, be interpreted as an indication of an impending nuclear attack. Making nuclear early warning systems and decision-making more automatic also brings risks.
