Politics (from Greek: Πολιτικά, politiká, 'affairs of the cities') is the set of activities that are associated with making decisions in groups, or other forms of power relations between individuals, such as the distribution of resources or status. The branch of social science that studies politics and government is referred to as political science.

Legitimate Power. Legitimate power is power that comes from one's organizational role or position. For example, a boss can assign projects, a policeman can arrest a citizen, and a teacher assigns grades. Others comply with the requests these individuals make because they accept the legitimacy of the position, whether they like or agree with the request or not.

The U.S. health care system is characterized by a high degree of fragmentation across many sectors, which raises substantial barriers to providing accessible, quality care at an affordable price. In part, the fragmentation in the system comes from disconnects between public and private services, between providers and patients, between what patients need and how providers are trained, between ...

In addition to changes in nursing practice and education, discussed in Chapters 3 and 4, respectively, strong leadership will be required to realize the vision of a transformed health care system. Although the public is not used to viewing nurses as leaders, and not all nurses begin their career with thoughts of becoming a leader, all nurses must be leaders in the design, implementation, and ...
