Base station (or base radio station) is – according to the International Telecommunication Union's (ITU) Radio Regulations (RR) – a "land station in the land mobile service.". The term is used in the context of mobile telephony, wireless computer networking and other wireless communications and in land surveying. In surveying, it is a GPS receiver at a known position, while in wireless ...

Note the number in the line in front of the radio you want to control. We will need the number later for the PTT control in direwolf.conf. I use an Elecraft KX2 and a 144/432Mhz transverter. 2044 is the rig number. So that I can e.g. output the frequency with the following command. rigctl -m 2044 -r /dev/ttyUSB0 -s 38400 f

A very simple, common option for LPFMs is the radio shack 36 foot telescoping mast, available for about \$60 from a local radio shack. With all the appropriate guy wires , turnbuckles and other hardware, installing this mast costs about\$200 and can be done in an afternoon with 5 or 6 people helping out.

This is a fantastic radio as are all Icoms. Hands down better and easier to navigate than my id-880. My only complaint and this is huge to me, if you want to mount this mobile( it is a mobile radio) You have to purchase the mount!! If you want to use it mobile with the head unit remote, then buy an additional mount!!

The nut can then actuate a micro switch (or two such switches, to obtain end-stop protection at both ends of the motion range). An implementation of this by Dominique, F1FRV, is illustrated below (ref. 11F). The design includes a remote-control unit and a 10-turn potentiometer (down-gear) for position feedback.

Verizon reported 55,000 new wireless broadband subscribers for the third quarter, bringing its total to 150,000 -- the first time the company has disclosed details of the business. The service, unlike mobile, is a fixed point-to-point connection using a mix of 4G and 5G signals.

### Verizon 'Excited' as It Discloses Sign-Ups for Wireless ...

A: Answer I bought a standard 3.5mm stereo cable from Radio Shack to hook from the sound card to the speaker and it works fine. The cable that connects the two speakers together is fairly short and it is proprietary and even Bose does not make an extension.
